

N° 8014

A single cavetto molding rings the domed face of the N° 8014 Georgian cabinet knob. Although Neoclassical in origin, the restrained design is also suitable for contemporary interiors. It is often specified with the companion N° 2014 lever or N° 1014 knob, which is manufactured in a variety of sizes for full-sized doors. The knob is shown here with optional rosettes. All Nanz finishes are available.

Collection: Georgian
