

N° 8025

The No 8025 Georgian cabinet knob adapts classical architectural motifs to create its unique design. A shallow ogee circles the face, transitioning into a cavetto joining the knob and shank marked by fine steps. Recommended finishes include burnished brass, antique brass, dark oxidized bronze, antique gold, and antique silver. It is often specified with the companion No 1025 Georgian knob, which is manufactured in a variety of sizes for full-sized doors. The cabinet knob is shown here with an optional rosette.
