

N° 8087

The No 8087 traditional round cabinet knob features a disk-shaped center surrounded by an astragal and cove. A larger astragal rings the circumference. The design traces its lineage back to the Federal style. It is often specified with the companion No 1087 knob, which is manufactured in a variety of sizes for full-size doors. The cabinet knob is available in five sizes and is shown here with an optional rosette. All Nanz plated and patinated finishes are available.
