

N° 8438

The No 8438 cabinet knob is a synthesis of traditional Georgian forms. A flat ring distinguishes the boss at the center from the ogival face of the knob. The drum-like shape, delineated by two astragals reflected across a cavetto profile, surmounts the contoured shank. It can be used in combination with the companion No 1438 knob. Finished to order in a wide range of finishes.
