

N° 8786

Studio Shamsiri and NANZ developed the varied handles through drawings, models, prototypes and a thoughtful manipulation of good ideas. The LA Collection draws from the diverse textures of California's urban and coastal environments. Exploring the interplay of materials, we believe the hardware evokes the city's natural beauty. The N° 8786 Non-Handed Inset Pull is designed for use on drawers. All Nanz plated and patinated finishes are available.

Width: 3"

Depth: 1"
