

NANZ

NANZ

Nº 9605

The beautifully designed No 9605 pocket door edge pull is suitable for conditions which call for a minimum of visible hardware. The loop handle pivots outward by pulling on the handle's top edge or pushing on the bottom. It is used in conjunction with any of our pocket door flush pulls. The face measures 5" x 13/16" with a mortising depth of 2". All Nanz finishes are available.
