

N° 2921

The Nanz N° 2921 Gio Ponti lever, based on a design by Giovanni Ponti from the 1950s, embodies elegant fluidity and expresses modern simplicity and the balance of form and function. The subtleties of the design give the N° 2921 a refined update to the classical homage. The slender handle tapers through its length and smoothly transitions to a cylindrical shank. The plain round rose features a unique design of minimal projection and diameter allowing it to be secured to doors without any visible fasteners. The N° 2921 is available in all Nanz plated and patinated finishes and can be used with any traditional mortise locksets. It is also available for use with multi-point doors and tilt & turn windows.

Length: $4 \frac{7}{16}$
Projection: $2 \frac{1}{4}$
Rose Diameter: $1 \frac{7}{8}$
