European Moderne in Pre-war Milan

From the realm of Arbus, Ruhlmann, and Chareau, the hardware suite is reminiscent of 1930's Milan.

Pulling inspiration from a snapshot of a 1930s Milanese villa, Necchi Campiglio, the project employs European Moderne style in a New World setting. Stone and cream stucco masses frame the simple mahogany windows providing a combination of classicism and modern simplicity. Most remarkable are the bathroom's green tile surrounding a clawfoot tub. White porcelain fixtures provide visual relief and are complemented with NANZAQUATIC's American Revival basin sets and an exposed tub filler in burnished brass.

ART DECO IN PALM BEACH

In the heart of Palm Beach, this Art Deco home captures the glamor of the 1920s. The home's architecture is a testament to the era's iconic style, featuring bold geometric patterns, luxurious materials, and a strong color palette. The vintage light fixtures complement the NANZAQUATIC Art Deco collection faucets and mirrored walls. A favorite aspect of the project is the home's antique mirrored bathroom, a nod to classic Art Deco design. Nickel casing frames the walls complemented by vintage Art Deco fixtures and a polished black marble floor.

At Home on the Gold Coast

A Georgian Revival brick house from the 1920s in Locust Valley, NY features historic details. The powder room showcases NANZAQUATIC Georgian Collection hardware in burnished brass with intricate detailing on the faucets and handles. The primary bath boasts the same collection in polished nickel with white inserts, offering a modern twist. The bath fixtures feature the N° 2013 lever, a handle that incorporates molding details which were part of the architectural vocabulary of 18th-century Neoclassicism. The understated classicism allows the design to be used in a variety of interiors.

Fittings in Every Finish

NANZ provides a staggering array of finishes for its products, including over 75 options such as natural, electroplated, powder-coated, and patinated. These finishes are available in various degrees of antiquing, burnishing, polishing, and satining, and can be enhanced with texturing techniques like hammering, chasing, and engraving. Most finishes can be supplied as natural living finishes or with protective coatings. Our closed-loop plating lines ensure that our finishes are both high-quality and environmentally friendly.
